This is to confirm that LOGOS – Hrvatska udruga za logoterapiju (Director: Dr. med. Cvijeta Pahljina) is a befriended institution of the Viktor Frankl Institute Vienna.

Our two institutions have been in close and friendly over the past years (since the inception of LOGOS – Hrvatska udruga za logoterapiju) with frequent exchanges of students and teachers, attendance of congresses and conferences. Our collaboration always has been, and continues to be, a hallmark both of professional and personal collaboration and friendship.

It is in this spirit that our best wishes accompany your pioneering work in Croatia and Slovenia – we look forward to our continuing close cooperation.

With kind regards,

Univ.-Prof. Dr. Alexander Batthyány
Director, Viktor Frankl Institut Wien
